Bleed

Trim

Finished size. Any text or graphics that are outside this area will be trimmed off.

Safe Area

Important text and graphics must remain inside the green lines to avoid being trimmed or covered by the lid at the top.

Seam Tolerance*

To create a seamless design, the artwork must match on both the left and right sides of the template. (*We cannot guarantee the seam of your artwork will align with the seam on the can.)

Silver Can*

Gray represents the silver of the can. Please indicate the metallic effects by placing them on the layer labeled METALLIC ELEMENTS HERE or indicate the white ink underlay on the White Plate layer. (*Gradient colored areas approximately represent the can's indents.)
